Animal Premise Disinfectant Cleaner & Deodorizer Concentrate formulated with

Faster Only concentrated hydrogen peroxide 5 minute Tuberculocidal disinfectant formula in Canada

Cleaner One-Step Disinfectant Cleaners with powerful surfactants (detergents) simplifying sanitation of animal environments saving time and money

Responsible In-Use Solution is essentially non-toxic* and non-irritating, does not require the use of PPE

Sustainable EcoLogo/UL certified, hydrogen peroxide breaks down into water and oxygen

Compatible Designed to be compatible with a wide range of materials, protecting your assets

CLAIMS

5 Minutes @ 1:40 Dilution

- Tuberculocidal
- Virucidal
- Bactericidal
- Fungicidal

30 Seconds @ 1:128 Dilution

- Broad-Spectrum Sanitizer

* Lowest WHMIS toxicity category for all 3 criteria: oral, dermal and inhalation

** Refer to reference sheet for additional claims and use instructions

USE DILUTION MADE EASY

Ratio	Per Litre of Water	Per 4 Litres of Water
1:40	25 mL	100 mL
1:128	8 mL	32 mL

DIRECTIONS TO MIX

1. Fill empty container with cold water based on the amount required for desired dilution.
2. Carefully add the concentrate into filled container.
3. Gently shake or mix the concentrate and water in the container prior to use.
Do not use undiluted.

CLEANING, DISINFECTION AND DEODORIZING OF EQUIPMENT AND NON-POROUS HARD SURFACES

Pre-clean heavily soiled areas. Dilute 1:40. Apply solution to surface until thoroughly wet. Ensure surface remains wet for 5 minutes and let air dry.

SHELF LIFE

2 Years, 30 Days Diluted (meets stability testing for up to 30 days after dilution with tap water)

CERTIFICATIONS

EcoLogo/UL Approved
